with internationalist aspirations and wide ranging historical perspectives east
german films about artists and their work became hotly contested spaces in
which filmmakers could look beyond the gdr and debate the impact of
contemporary cultural policy on the reception of their pre war cultural heritage

spanning newsreels documentaries and feature films screening art is the first full length investigation into a genre that has been largely overlooked in studies of defa the state owned eastern german film studio as it shows artist films played an essential role in the development of new paradigms of socialist art in postwar europe

this book examines the history of translation under european communism bringing together studies on the soviet union including russia and ukraine yugoslavia hungary east germany czechoslovakia bulgaria and poland in any totalitarian regime maintaining control over cultural exchange is strategically important so studying these regimes from the perspective of translation can provide a unique insight into their history and into the nature of their power this book is intended as a sister volume to translation under fascism palgrave macmillan 2010 and adopts a similar approach of using translation as a lens through which to examine history with a strong interdisciplinary focus it will appeal to students and scholars of translation studies translation history censorship translation and ideology and public policy as well as cultural and literary historians of eastern europe soviet communism and the cold war period

examining east german films made between 1949 and 1989 feinstein argues that filmmakers created images of daily life in the german democratic republic that both challenged and legitimized socialist rule

the german democratic republic has become the subject of novels memoirs and films and the backdrop for general debates over the power of intellectuals in contemporary media and society this collection considers the demise of the gdr and its impact on the place of intellectuals
