in imperiled whiteness penelope ingram examines the role played by media in the resurgence of white nationalism and neo nazi movements in the obama to trump era as politicians on the right stoked anxieties about whites losing ground and being left behind media platforms turned whiteness into a commodity that was packaged and disseminated to a white populace reading popular film and television franchises planet of the apes star trek and the walking dead through political flashpoints such as debates over immigration reform gun control and black lives matter protests ingram reveals how media cultivated feelings of white vulnerability

and loss among white consumers by exploring the convergence of entertainment news and social media in a digital networked environment Ingram demonstrates how media's renewed attention to imperiled whiteness enabled and sanctioned the return of overt white supremacy exhibited by alt right groups in the Unite the Right rally in Charlottesville in 2017 and the Capitol riots in 2021

The MBR market continues to experience a massive growth. The best practice in the field is constantly changing and unique quality requirements and management issues are regularly emerging. The second edition of *Membrane Biological Reactors: Theory, Modeling, Design, Management, and Applications to Wastewater Reuse* comprehensively covers the salient features and emerging issues associated with the MBR technology. The book provides thorough coverage starting from biological aspects and fundamentals of membranes via modeling and design concepts to practitioners' perspective and good application examples. In the second edition, the chapters have been updated to cover the recently emerged issues. Particularly, the book presents the current status of the technology including market drivers, restraints, and development trend. Process fundamentals, both the biological and membrane components, have received in-depth coverage in the new edition. A new chapter has been added to provide a stronger focus on reuse applications in general and the decisive role of MBR in the entire reuse chain. The second edition also comes with a new chapter containing practical design problems to complement the concepts communicated throughout the book. Other distinguishing features of the new edition are coverage of novel developments and hybrid processes for specialised wastewaters, energy efficiency, and sustainability of the process. Aspects of MBR process automation and recent material on case studies. The new edition is a valuable reference to the academic and professional community and suitable for undergraduate and postgraduate teaching in environmental engineering, chemical engineering, and biotechnology.
